

Ultra Precision 2X Magnification Skin Analysis Machine With Camera

Our Product Introduction

For more products please visit us on hifubeauty-machine.com

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: AISIA
- Certification: ISO CE
- Model Number: Q3
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Magnifier Rate: 2 X
- Camera Sensor Model: CCD1/1.7
- Type: Portable
- Power Supply: AC 100-240V, 50/60Hz
- Packing Size: L68xW49xH51cm
- Magnifier: Yes
- Detect Problem: 12 Skin Problem Detected
- Working Environment: 10 – 35 Celsius Degrees
- Name: Skin Analysis Machine
- Highlight: **2X Magnification Skin Analysis Machine, Ultra Precision Skin Analyser Machine, Skin Analysis Machine With Camera**

Product Description

Ultra Precision 2X Magnification Skin Defect Analysis Machine

Product Description:

The Skin Analysis Machine is lightweight, weighing only 2.5kg, making it easy to transport and use anywhere. The machine comes with a 2X magnifier rate to enable a closer look at the skin. The Skin Analysis Machine's high-resolution camera captures images of the skin, which can be viewed on the screen in real-time. The images can also be saved as a PDF and printed for further analysis or to share with clients.

The Skin Analysis Machine is an excellent tool for identifying skin problems such as wrinkles, fine lines, dark spots, and acne. The machine uses face recognition technology to identify the client's face and provide a comprehensive analysis of their skin. The machine can also be used to measure body temperature, making it a versatile tool for healthcare professionals.

The Skin Analysis Machine is a must-have tool for skincare professionals who want to provide their clients with the best possible care. The machine's high-resolution camera and RGB + UV operating system provide a comprehensive analysis of the skin, while the PDF print feature allows for further analysis and sharing with clients. The Skin Analysis Machine is lightweight and easy to transport, making it a perfect tool for on-the-go skincare professionals.

Features:

Product Name: Skin Analysis Machine

Color Temperature: 7200 K

Pdf Print: YES

Detect Problem: 12 Skin Problem Detected

Megapixel: 2000W

Usb: 2.0 Port

Features:

3D Skin Analyzer

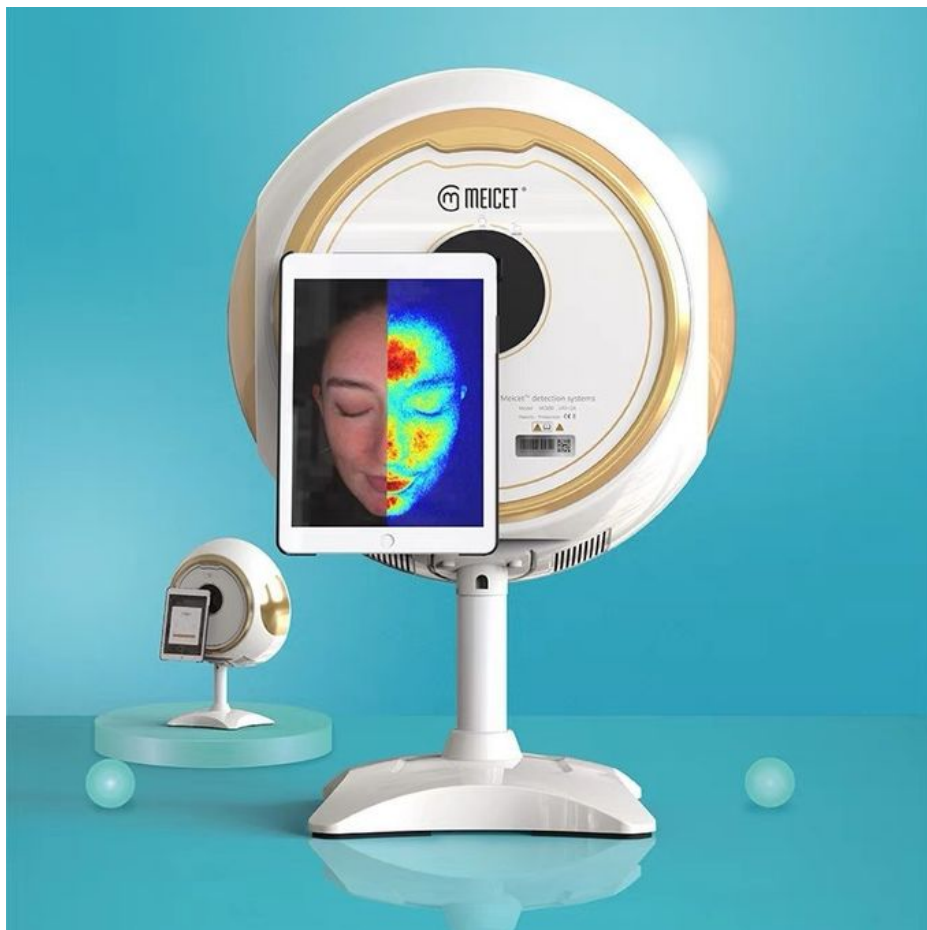

Face Moisturizer Machine

Dermatological Equipment

Technical Parameters:

Facial Skin Analyzer Machine	Dermatological Equipment
Camera Sensor Model	CCD1/1.7
Computer Requirement	Windows XP/Vista/7/8/10
Megapixel	2000W
Pdf Print	YES
Detect Problem	12 Skin Problem Detected
Usb	2.0 Port
Operating System	RGB +UV
Power Supply	AC 100-240V, 50/60Hz
Magnifier	Yes
Working Environment	10 – 35 Celsius Degrees

Applications:

Customization:

Place of Origin: China Guangzhou
 Detect Problem: 12 Skin Problem Detected
 Computer Requirement: Windows XP/Vista/7/8/10
 Magnifier Rate: 2 X
 Power Supply: AC 100-240V, 50/60Hz
 Weight: 2.5kg

Our Skin Analysis Machine, also known as the Facial Dermabrasion Machine or DPL Skin Rejuvenation Machine, is a high-tech device that can detect and analyze various skin problems with precision and accuracy. With our customization services, you can choose the specific features that you need for your business or personal use. Whether you're looking for a machine that is easy to use, has a high magnification rate, or requires specific computer requirements, we can help you find the perfect Skin Analysis Machine for your needs. Our machines are also compatible with VISIA software, making it easy to analyze and track changes in your skin over time. Contact us today to learn more about our customization options.
